South Hackensack, New Jersey:

Comprehensive Adds HDMI 200' Extender Over Cat5 Supports Resolutions Of Up To 1080p!

Comprehensive is proud to announce the addition of our new **CHE-2 HDMI Extender** to our 2010 product line. This extender is the low cost solution when an HDMI signal needs to be extended up to 60 Meters or 200 feet (Using Cat6 Cable). The CHE-2 has signal transfer rates of up to **2.25Gbps** with a full **1080p** video signal.

There's no need to pay hundreds of dollars on high priced extenders that claim to be the best. The more affordable, **CHE-2** performs the same and carries the **HDCP** signal just as well, unlike some of the more expensive pieces out there. The **CHE-2** has a small compact design so it can be mounted right on top of, or behind the equipment unobtrusively. The **CHE-2** also features an auto adjusting circuit to prevent feedback and helps to equalize and amplify the signal.

Just check out these great features below:

- **Extend full 1080p video signal up to 60 meters using Cat-6 Cable**
- **Follows standard IEEE-568B**
- **Auto-adjustment for feedback, equalization and amplify**
- **Signal rates up to 2.25Gbps**
- **Second Cat5e to carry HDCP**
- **Compact size**
- **Weight 0.5 lbs**
- **RoHs Compliant**
