Comprehensive Offers New 25 awg Solid Conductor RGBHV Bulk Cable

Comprehensive, the leading manufacturer of connectivity and solution oriented products, is pleased to announce our new 25awg Solid Conductor RGBHV Bulk Cable. The **CVC-RGBHV/HRSC** and **CVC-RGBHV-HRSCP** (Plenum) high resolution cable is specially engineered for today's high resolution RGBHV signals. The five 25 AWG conductors are constructed of a solid bare copper center conductor and low loss dielectric. Each conductor is individually shielded with a 100% tightly woven, tinned copper braid shield and then wrapped with an additional foil shield.

The entire cable is then finished with Comprehensive's famous X-traflex, non-glare black matte jacket. Each of the five individual coax conductors is color coded (red, green, blue, black and yellow) for easy identification. Sequential foot markings make cable management quick and easy. **CVC-RGBHV/HRSC** is available in 500 or 1000 ft. spools. Use true 75 ohm BP-RGB nickel over brass connectors and the CT-1 crimp tool and CTD-001die to terminate.

Features Include:

- 25 awg Solid Core Copper Conductors
- Plenum and Non-Plenum Available
- 500' and 1000' Spools
- 75Ω Impedance
- X-traflex Non-Glare Matte Black Jacket
- 100% Tight Woven Copper Braid
- 2 Foil Shield
- Individually Shielded Conductors
- Sequential Foot Markers

More Information
