Comprehensive Introduces X3V HDMI Cables Delivering 1080p up to 65ft

South Hackensack, NJ. Comprehensive has just introduced their new XHD True HD HDMI cables with lengths up to 65ft.

Comprehensive True HD HDMI cables provide unsurpassed performance and pure digital signal transmission far beyond standard consumer grade cables. Utilizing an exclusive patent pending design technology, XHD True HD cables allow for all digital high-definition 1080p video and audio transmission to lengths of 65 feet without an extending or repeating device. Premium construction and gold plated nickel over brass connectors provide maximum signal transfer for all of today's high-definition devices. Unlike competitors cables, Comprehensive XHD True HD HDMI cables are designed specifically for true 1080p performance with virtually no artifacts or loss of signal quality at 1080p resolution.

True HD HDMI cables are engineered for picture perfect presentations and today's high definition components including the latest Plasma, DLP and LCD displays.

For more information on Comprehensive True XHD cables or for a free copy of the new 2007 Comprehensive catalog, please visit the Comprehensive website at www.comprehensiveinc.com, e-mail sales@comprehensiveinc.com, or call toll-free at 800-526-0242.
